EDUCATION

Bachelor of Technology — Computer Science

[Lovely Professional University \(LPU\)](#)

Jul 2025 – Jul 2029

Punjab, India

- Relevant Activities: Hackathons (WEB-A-THON 24hr, CODE-A-FESTX 24hr, EDUREV Talent Hunt); Event Coordination — MINI SPECTRA & SPECTRA; EXPOs — Computing & AI Innovation Expo '26, InnoTek '26
- Workshops: Google DevFest 2025 (GDG Jalandhar), Googlify 2.0, Coursera Day
- Skills Applied: Figma, OOP, Full-Stack Development, Data Structures & Algorithms

High School — Science

[Dr. Virendra Swarup Public School](#)

Graduated 2023

Kanpur Nagar, UP, India

- Achieved 93.4% aggregate; served as House Captain and Class Representative

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), Java, C++, HTML5, CSS3

Frameworks/Libraries: React.js, Node.js, Express.js, Bootstrap, Leaflet.js, Chart.js

Databases & Cloud: MongoDB, PostgreSQL, Supabase, RESTful APIs

AI / ML / GenAI: Machine Learning, Deep Learning, LLMs, RAG, Prompt Engineering, Generative AI (DALL-E, Midjourney)

Cybersecurity: CTI, CTH, Threat Detection & Analysis, Incident Response, Kali Linux, Cryptography, Social Engineering

Tools & Platforms: Git, GitHub, GitHub Copilot, Figma, npm, Arduino, AutoCAD, VS Code

CS Fundamentals: Data Structures & Algorithms, OOP, DOM Manipulation, Full-Stack Architecture, Responsive Design

EXPERIENCE

Event Coordinator

[Coding Blocks](#) · Part-time

Feb 2026 – Present

Jalandhar, Punjab, India

- Orchestrated end-to-end logistics for coding workshops and technical seminars, improving student participation throughput by coordinating scheduling across 3+ simultaneous events
- Drove cross-functional communication between facilitators, venue teams, and 100+ attendees, reducing event friction and achieving consistent on-time delivery

Technical Lead

[LPU School of Computer Science Engineering](#) · Part-time

Feb 2026 – Apr 2026

Punjab, India

- Led technical execution of departmental events including infrastructure setup, team coordination, and live troubleshooting across 3-month tenure
- Applied event planning and formal communication skills to align a cross-functional team of 10+ members toward shared technical milestones

Community Member

[Google Developer Groups \(GDG\) Jalandhar](#)

Dec 2025 – Present

Jalandhar, Punjab, India

- Participated in Google DevFest 2025, Googlify 2.0, and Coursera Day — engaging with industry-grade content on cloud, AI, and developer tooling from Google engineers
- Leveraged GDG network to stay current on emerging Google technologies including Gemini, Firebase, and Android development practices

PROJECTS

Jan 2026 – Present

- Architected an LLM-powered SaaS platform that generates hyper-personalized career roadmaps by combining pattern recognition across market trends with user skill-gap analysis
- Engineered a RAG pipeline to ground career recommendations in real-time industry data, reducing hallucination rates and increasing output relevance for diverse user profiles
- Designed high-performance frontend with sub-200ms interactive response using React.js and optimized state management

Feb 2026 – Apr 2026

- Built an offline-first SaaS platform serving 4 stakeholder roles (citizens, municipal authorities, NGOs, contractors) with role-based access control (RBAC) and real-time geospatial mapping via Leaflet.js
- Implemented voice-to-text civic issue reporting, transparent budget tracking, and a gamified community funding system — compressing typical reporting cycles from days to minutes
- Architected Supabase backend with row-level security policies enforcing strict data isolation across organizational tiers

Feb 2026

- Engineered a frontend-only SaaS dashboard for payroll, treasury, and expense management — eliminating backend dependency while maintaining enterprise-grade data fidelity
- Integrated real-time AI cost forecasting with live Chart.js rendering, Kanban workflow engine, simulated OCR receipt scanning, and automated multi-page PDF reporting entirely within the browser
- Implemented RBAC with 3 distinct permission tiers (Admin, Manager, Viewer) enforced at component level

Jan 2026

- Designed a digital welfare platform enabling geo-located discovery of food, shelter, and medical resources — serving underserved populations with zero-friction onboarding
- Integrated a mental wellness module featuring deep work zones and clinical self-assessment tools, addressing the intersection of productivity and mental health support

- Oracle Cloud Infrastructure 2025 — Data Science Professional Certificate — Qualcomm
- Artificial Intelligence — Amazon Web Services (AWS)
- Cybersecurity Fundamentals — IBM
- Full Stack React — Infosys Springboard
- Deloitte Technology Job Simulation — Forge
- AI Upskilling

- Completed in 5 national-level hackathons: Graph-E-Thon 3.0 (Unstop), COD-A-FESTX 3.0 (LPU), WEB-A-THON 2.0 (LPU), COD-A-FEST 3.0 (LYNQUP), EDUREV Talent Hunt 2025
- Coordinated Computing & AI Innovation Expo '26 and InnoTek '26 as Technical Lead at LPU's CS department — events attended by 500+ participants
- Portfolio: resume-prakharcodess.vercel.app | Live production deployments across 4+ full-stack projects
